

# STORAGE TANKS

The closed round tanks are used for the storage of wine and liquid foodstuffs. They are made of stainless steel W.No. 1.4301 BA (AISI 304 – V2A) and the tank cover is made of W.No. 1.4404 2B (AISI 316 – V4A). Our offer includes a wide range of tank volumes, from 500 l up to 20.500 l. Optionally, different dimensions (diameters and heights) are available. Customers may choose from among diverse additional equipment (e.g. cooling jacket, cooling plates, temperature control and regulation systems, different manway types).
